Thanks for the link today. I owe you and everyone else an apology . I unwisely shot off my mouth to Josh Good the other night after our last meeting and even though I told him then it was off the record and only my opinion, you heard him quote me to the Council as if it was the Board's attitude/position. I'm sorry!! It makes me feel betrayed.

For this and other reasons, I believe it to be in everyone's best interest if I resign from the Board immediately, which will free up the City to populate it as they see fit. Mr. Helms is essentially vetted and will constitute a quorum with you Adam.

Please forgive me if it seems sudden, but I assure you it is not. We all have known this was coming and I believe the time is now. Good luck and thank you all.
