Notice of Resignation from PDA Board

In response to apparently fruitless calls for volunteers, I offered to serve until you could achieve a qualified quorum which didn't include me. That condition has been met and now that you have a quorum, I resign to pursue my own responsibilities.

I believe that many prospective volunteers are deterred when learning that a state investigation, including fingerprints, is required for both the volunteer and his/her spouse before qualification for membership on this Board. This investigation is thorough, intrusive, and time consuming. Folks who might be willing to serve have bolted when they understand that this position holds them to the highest standard as a trustee, has no monetary value to them, and any reward is in the belief that they are making an important contribution to the community.

Thank you for allowing me this experience. I have gone through the investigation, qualified, and have taken the responsibilities very seriously. I sincerely appreciate the dedication, concern, and important contributions made by everyone on this Board.

My resignation is effective Oct 31, 2016.
